

French Teenagers' health habits

We asked most of the pupils in our class questions to get to know their health habits :

Question 1 :

All pupils go to the fast food restaurant once a week.

Question 2 :

Most of the pupils go to the dentist's every 6 month. Five pupils go to the dentist's once a week. And the rest of the pupils go to the dentist's only when they have a toothache.

Question 3 :

Most of the pupils brush their teeth twice a day and two pupils brush their teeth three times a day

Question 4 :

Most of the pupils eat snacks while they watch TV and only 5 pupils do not have this bad habit ;-)

Question 5 :

Most of the pupils spend less than 10 hours a week watching TV. Two pupils spend between 10 and 20 hours a week watching TV.

Question 6 :

Most of the pupils never come to school on an empty stomach. Few pupils sometimes come to school on an empty stomach. Other pupils often come there like this. And one pupil always comes there in this way.

Question 7 :

Most of the pupils hardly ever get a sunburn. 6 pupils never get a sunburn. The rest of the pupils quite often gets that.

Question 8 :

Most of the pupils sleep about 10 hours on weekdays. Other pupils sleep less than 8 hours. And only 2 pupils sleep more than 10 hours.

Question 9 :

1 pupil practises a sport outside school. The rest of the pupils practises more than 1 sport outside school and 8 practise more than 2 sports.

Question 10 :

Most of the pupils spend less than 10 hours a week using their computer and two pupils spend between 10 and 20 hours a week on their computer !
