

16th December 2014

Hello! ☺

My name is Ira. I am 13 years old. I'm from Hdebr in the Czech Republic.

I have long brown hair and blue eyes. I'm 155 cm tall.

My favourite animals are horses, dogs and cats.

My favourite subjects are P.E, Maths, Science and English.

My favourite food is apple, pizza and ice cream.

My favourite sports are tennis, riding a horse and riding a bike.

My favourite drinks are cocacola and juice.

I like listening to music.

I think that in hundred years there might be aliens and darkness.

There will be no computers, mobile phones and tablets.

There would be no shops, internet and hospitals.

Nowadays, almost everything is ~~now~~ cell phones, computers, tablets.

People drive cars, there are shops and hospitals.

Children go to school, adults can work and earn money for food, houses, clothes and doctors. In hundred years, it may be entirely good or bad than it is today.

But I hope life will continue as now.
